OUR VISION

CEO - Rehan Sumar

Go Sportz, is a part of the Aar Ess Group that operates under various brands such as Floor Zone, Wallz, Amphifun & now Go Sportz. Since its inception in 1988, the Aar Ess Group, an ISO 9001:2000 certified company has always been a step ahead in anticipating the constantly changing needs of the dynamic market. We have always adopted a customer-centric & consultancy focussed approach. As we have always treated our customers as 'partners', we take great pride in saying that we have experienced extraordinary growth during these times. Go Sportz is driven by the same philosophy. We put our advanced resources to optimum utilisation, which gave birth to our impeccable product quality along with the strength of the product range. Our meticulous and frequent follow-ups per project, from conceptualising to completion gets us to enjoy close relationships that we share with our 'partners'. A team, which is high on energy, championed on by enthusiastic management means that we're continuously striving to bring new and exciting ideas to the marketplace. Go Sportz wants to change the way people look at sports. From home gyms to complete solutions in setting up world-class sports facilities, we want people to understand that their favourite sport is right around the corner. With the leading suppliers of sports surfaces & equipment from all across the world by our side, we are now stronger than before to take on this herculean task!

SPORTS TENNIS

MSLTA, Mumbai

Malabar Hill club, Mumbai

Tennis courts have undergone some major innovations and transformations in the past few decades. 88% of the top 10 Tennis players since 1973, have grown up on Clay Courts. USA, Canada, Australia, UK, and China have consistently been using Clay Court Systems to train their juniors. Clearly, learning on clay is the single best thing you can do to create future champions.

Keeping in tune with that, Go Sportz has introduced a Synthetic Clay Court System, for the first time in India. Synthetic Clay Courts are basically the best of both worlds with the benefits of clay & a year-round playing surface, at the same time.

Go Sportz offers the widest range of synthetic Tennis surfaces in India. From basic Acrylic Hard Court System to Acrylic Insitu-Cushion System and Synthetic Turf, Go Sportz brings the perfect choice of surfaces suited to the requirements of the game and the client.

Suitable surfaces -

- Acrylic System
- Synthetic Grass
- Synthetic Clay

MULTISPORT/ UTILITY FACILITY

American International School, Dhaka

Sastra University, Thanjavur

When it comes to multi-sports or a utility facility, the space constraints makes it important to ensure that even the most compact spaces are impactful. A primary requirement of a lot of educational institutes! Go Sportz is a pioneer in providing such floors, which are perfect for not only serious sporting competitions, but also for seminars or even nonsporting events.

Polyurethane Seamless flooring systems are gaining momentum as the preferred flooring for a good majority of sports surfaces. The reason for this is not only that they need minimal maintenance, but also that they can be used for indoor as well as outdoor surfaces. They're long-lasting and seamless, making them perfect for rough usage. The polyurethane seamless flooring system is made of a granular rubber shock pad, which is bonded to the floor with a solvent-free adhesive. The sponge-like porous rubber shock pad is completely sealed with polyurethane material, combined with the application of multiple seamless, self-leveling layers. Finally, a matte top coat is applied on the surface for the games' line marking to be completely visible and contrasting.

SPORTS SQUASH

Bangalore Club, Bengaluru

ISquash Academy, Pune

Go Sportz has now partnered with ASB, the leader in squash facilities the world over & the supplier to the most important international tournaments such as The World Championships, PSA Masters Events & The Commonwealth Games.

Our partnership with ASB has been entered into with the sole purpose of bringing to the table, top quality yet economical squash facilities. By using our local experience as well as our skilled & trained installation team, we're able to lower costs without compromising on the quality and value associated with ASB courts worldwide.

What does the Go Sportz - ASB partnership mean for you?

Consultancy on setting up new facilities

Assistance in maintenance of existing facilities

Providing affordable and long term renovation options

Extended warranties & quick service Top class squash courts

We are also proud to be associated with the Squash & Racquets Federation of India & The Tamil Nadu Squash Association, with over 150 prestigious courts serviced across the country.

SPORTS SQUASH

When it comes to building a Squash court, the walls play a very important role. It is mandatory that the walls be sufficiently strong and capable of withstanding any stress or damage, whether short term or long term from the impact of constantly hitting balls at high speeds and forces.

Another important factor when it comes to a Squash court is the rebound angle. An accurate, precise rebound is the one that follows the exact laws of physics: angle of impact to the wall equals the angle of rebound of the aforementioned.

Hence, for the exact rebound to take place it's important that the walls be devoid of cracks, peeling plaster, gaps, joints, and/or multiple panels.

Go Sportz also offers its clientele the option to install a squash court entirely made of glass. With the assurance of ASB quality, suffice it to say that the tempered glass is built to withstand the heaviest ball and racquet impact. The outstanding quality also helps in ascertaining that the safety terms and conditions are met.

SPORTS FOOTBALL & INDOOR SOCCER

FOOTBALL : A fast-paced game, which involves raucous and rough play at times, football surfaces and platforms require fall impact resistance. Go Sportz offers synthetic turf for football to play on. Since this turf is made of synthetic fibers that look like grass, the surface comes with many advantages. Starting from minimal maintenance, these turfs stand up to heavy usage due to lack of need for trimming. The best part though, is the absence of irrigation and sunlight they need, thus consuming no natural resources.

Suitable surfaces -
Synthetic Grass

INDOOR SOCCER : The goal posts and field sizes in indoor soccer may be smaller than in regular football, but the gameplay remains the same. The flooring for this game needs to enable fast paces while resisting fall impact. Go Sportz offers floorings and surfaces, depending upon the client requirement and nature of the game being played.

Indoor suitable surfaces -
Synthetic Grass
Polyurethane Seamless

SPORTS BADMINTON

Father Agnel Technical School, Navi Mumbai

Karunya University, Coimbatore

In a Badminton court, flooring with factors such as shock absorption, grip and resilience can seriously alter a player's performance and endurance.

Go Sportz not only provides consultation for choosing the right floor depending on your level of play but also offers warranties and undertakes after sales maintenance to extend the life of your investment. We have onboard accessories such as nets and Badminton equipment too.

Suitable surfaces -

- Wooden Flooring System
- Polyurethane Seamless
- Vinyl System

SPORTS BASKETBALL

Anekant English Medium School, Baramati

Malpani Foundation, Sangamner

Basketball involves passing, running and catching, which means that good friction from a Basketball court is necessary. Also, having a good quality Basketball court flooring that is anti-glare, accompanied by good shock absorption can help build skill and technique on the court.

Our high-grade Go Sportz Basketball court floorings are patterned to meet international NBA & FIBA standards in safety, durability, and quality for Basketball playing areas. We provide convenience, comfort and a few unique customisation options for our clients. Do ask for recommendations from our personnel when enquiring.

Indoor suitable surfaces -

Rubber System

SPORTS VOLLEYBALL

When it comes to Volleyball, it's important to have a floor that provides impact resistance & comfort, whilst reducing knee injuries. Go Sportz offers FIVB. approved products, thus ensuring that the surface utilised provides the ideal recommended standards for safe & fair play.

Indoor suitable surfaces -

- Wooden Flooring System
- Polyurethane Seamless
- Vinyl System

Outdoor suitable surfaces -

- Acrylic System
- Rubber System

SPORTS CRICKET

Cricket played from gullies to stadiums, is one of the most popular games in India. Hence, it's important to consider the requirements of different play areas such as schools, clubs, societies, indoors and outdoors.

Due to this, Go Sportz offers non-infill options, making it very low maintenance. Go Sportz also supplies synthetic turf for the pitch areas as well for the peripheries.

Indoor suitable surfaces -

Synthetic Grass
Polyurethane Seamless

Outdoor suitable surfaces -

Synthetic Grass

SPORTS HOCKEY

Hockey, being the national sport of India receives widespread recognition. The demand for this play area too is quite a niche and precise, thus making it important to look after all the details and specifications.

With schools, clubs, and indoor & outdoor facilities putting forth their requirements, Go Sportz has its finger on the pulse of the matter. Go Sportz supplies synthetic turfs, which guarantee minimum maintenance. These artificial turfs are also famed for affording maximum player movement as they offer resilience to control ball bounce.

Suitable surfaces -

Synthetic Grass

SPORTS RUGBY

A boisterous and competitive sport such as Rugby requires special consideration towards players. Go Sportz offers synthetic grass, which offers better fall impact resistance than hard ground or any other flooring system. With the look and feel of natural grass, while also fulfilling requirements of ball performance and surface durability, synthetic grass is the ideal proposition for Rugby. The lack of need for irrigation and trimming goes a long way in its longevity.

Suitable surfaces -
Synthetic Grass

SPORTS GOLF

Whether you're invested in a large golf course or a backyard golf area, the cost of maintenance of natural grass gets to be quite expensive & tedious. To address this, Go Sportz has introduced synthetic turfs for putting as well as the green areas. The fact that is also environmentally friendly adds to its desirability.

Suitable surfaces -
Synthetic Grass

SPORTS TABLE TENNIS

When it comes to Table Tennis, the flooring plays a crucial role. It is important for the floor to have a natural ball bounce absorption so as to ensure the seamless continuity of the game. It is imperative for the floor to be shock absorbent, scratch-proof and easy to maintain. Needless to say, it is also important for the floor to be fit for its target clientele, such as professionals, students, or beginners.

Suitable surfaces -
Polyurethane Seamless
Rubber System
Vinyl System

SPORTS HANDBALL

Player safety is one of the primary concerns in this sport, considering that the play is rough and sportsmen injuries occur more frequently than we think. These seamless surfaces provide a smooth platform to prevent abrasion. On the other hand, the rubber cushioning provides necessary impact resistance. Go Sportz offers IHF certified products.

Suitable surfaces -
Polyurethane Seamless
Vinyl System

ATHLETIC TRACKS

Shivaji University, Kolhapur

Mahatma Global Gateway, Madurai

Athletics being an umbrella term, it includes everything from sprints and relay races to javelin throws and high jumps, thus involving a lot of jumping, running and throwing. For nuanced sports such as these, where posture, momentum, and technique reap important results, a specialised product range is necessary.

Go Sportz offers a range of athletic tracks that ensure that players' safety surmounts everything else, ensuring top performances by athletes without any fear of injury.

Indoor suitable surfaces -

- Spray System
- Sandwich System
- Full PUR System

CHILDREN'S PLAY AREA

Whether indoors or outdoors, Go Sportz offers a wide range of children's safety flooring option. We understand that when it comes to children, it is imperative to create a safe & cheerful environment. From the EVA Cushion to Ora Play Tiles, from Outdoor Rubber Tiles to Full Pour EPDM systems, we have something to suit every budget & application.

Indoor suitable surfaces -

- Polyurethane Seamless
- EVA Cushion System
- Rubber System

Outdoor suitable surfaces -

- Rubber Full Pour System
- Rubber Tiles
- Synthetic Grass

JOGGING TRACKS

Accurately cushioned tracks and shockproof surfaces are important for the manifestation of good posture for ankles, soles, and knees. Go Sportz specializes in the right product recommendation basis for the application. Whether it's a recreational facility, an educational institution or a government-run facility, Go Sportz ensures that all jogging tracks are secured for runners and walkers alike.

Indoor suitable surfaces -

- In situ Rubber Systems
- Rubber Tiles

FITNESS & GYM

Gold's Gym, Pune

Body Sculpt, Bengaluru

We understand that a gymnasium may vary from a home gym to a large commercial fitness center. Whether it's the entrance lobby, aerobics, cardio, free weights, or the wet areas, every area of the gym requires a surface that performs tasks different from the others. Go Sportz provides possibilities and alternatives for every area of the gym.

Indoor suitable surfaces -

- EVA Cushion System
- Polyurethane Seamless
- Rubber System

OUR SERVICES (360°)

Go Sportz offers a complete 360° package depending on the client requirement & stage of the project

OUR SERVICES (360°)

Rent A Court -

Go Sportz has for the first time in India, brought forth the ASB Glass Court as well an Indoor Tennis & Multi-Sport Court.

This not only increases the popularity of the sport but also makes it spectator friendly, increases location flexibility due to easy mobility and increases visibility thus aiding the sponsors & organisers.

Line Marking Service -

The only part that differentiates a sports surface to a ready-to-use sports court is line markers. Pitch marking gives players and referees a clear indication of the formation of the field and the location of the markings. Today Go Sportz with Beamrider has for the first time in India, introduced digital line marking, the only laser guided line marking machine in the world.

Court Maintenance -

A majority of sports facilities in India lack maintenance infrastructure, which helps develop the longevity of these sports facilities. In fact, it is safe to say that most sports surfaces fail to function and perform at their optimum throughout their lifespan due to post-installation negligence and lack of maintenance. The playing surface is the most important aspect of a sports surface and system, as it has a direct impact on the player.

To curb this pattern, Go Sportz has now introduced a 'maintenance program' for all sports facilities. This includes a customised 'surface specific program' to ensure that the surfaces comply with the recommended standard of performance for that sport, through their usage.

We have the resources and equipment we have invested in, to undertake this task in a professional manner. From online information systems that provide economical and sustainable renovation options to pre-post pitch/site testing, Go Sportz has you back every step of the way.

GO SPORTZ CONSULTANCY SERVICES

Due to our experience of working with various international companies & execution of numerous sports infrastructure facilities in the Indian subcontinent, Go Sportz now has the capability to also provide consultancy & design services for sports infrastructure requirements.

The services include -

- Determining the state of the current sports facilities
- Understanding client needs
- Align sports goals of the client with the infrastructure requirements
- Survey of site
- Providing design layout of playing areas
- Recommending various sports surface options
- Recommending allied infrastructure needs

OUR EQUIPMENT

Go Sports offer testing equipment for pre as well as post installation. Testing ensures the pre-condition before the surface is installed & also the post-condition confirming that the surface is fit to play. Besides Go Sportz also offers line marking equipment to mark clean & crisp lines, the essence of a good looking sports field

Testing Equipment

Testing equipment comes in two ranges. The Pro-Line, which is meant for testing in laboratories, before the system has been installed. The other one is The Club Line, which is used for the field testing of sports surfaces, including both, artificial turf as well athletic tracks, and gives out insight regarding the condition of your sports surface.

Line Marking Equipment

Line marking equipment is what turns a field into a surface armed for sports play. At Go Sportz, we have state of the art line marking equipment, including the revolutionary machine and paint system that is redefining the standard of professional performances, while staying true to user-friendliness.

Go Sportz offers two acclaimed systems and techniques that involve the latest innovation in line marking.

- BeamRider
- Kombi 3

Go Sportz supplies line marking machines, line marking paint, marking out tools and accessories, to mark out your sports pitch or playground, giving them clearly defined lines.

INFRASTRUCTURE

Apart from the offering, installing and providing after-sales services for sports surfaces and walls, Go Sportz also undertakes turnkey projects for sports applications. From gymnasiums to specialised sports fields, from clubs to stadiums, our team of specialised personnel will help plan and execute your requirements, basis space conformity, budgetary allocations, usage, and general upkeep.

Other products and services offered by Go Sportz -

- Sub floor construction
- Lighting

GO SPORTZ OFFERS :

ASB Squash Court

The world leader in Squash courts and surfaces, ASB holds the record for the most number of World Championships played on their courts. Go Sportz brings ASB courts to India for increased spectatorship, improved sponsorship and in a manner that will fulfill the specific needs of sports facilities.

Pulastic

A division of the titan SIKA group, Pulastic sports floors are seamless, multi-functional and approved by FIBA, FiVB, IHF, ITF, and BWF. With low maintenance costs & a long life span, it is the perfect floor for educational institutions & sports clubs.

GreenSet

GreenSet, another of our partners is headed by Mr. Javier Sanchez, a former professional Tennis player. Hence, our products have been carefully developed in consideration with his deep understanding of the requirements of the player.

Proflex

With the versatile utility, Proflex is the preferred choice from Tennis Courts in the UK to the Rotterdam ATP Championship. Go Sportz offers this world class acrylic sports surface for outdoor tennis, basketball, & volleyball, as well as specialised outdoor roller skating rinks.

Haro

Engineered wooden sports floors are the modern age preferences for indoor sports such as basketball, handball, volleyball, badminton, aerobics, fitness and more. Besides being dimensionally more stable than solid wood, these floors are low in maintenance with lower life-cycle costs and are eco-friendly.

Ora

A range of vinyl, insitu rubber system, rubber tiles & EPDM roll flooring complete the range of sports floors. BWF approved badminton vinyl floors cater to global standards whereas rubber tiles and insitu rubber systems can be customised for children's play areas as well as other casual courts.
