

SAND FILLED TURF

Go Sportz offers an extensive range of Artificial Turf Systems for Tennis, Hockey, Football, Cricket, Golf as well as Rugby. Along with these Go Sportz also offers turf for multi-sport use as well as for children play areas.

Quality standards on artificial turf pitches are becoming increasingly stringent, and rightfully so considering the investments made. Hence it is critical that standards be high. We at Go Sportz, along with our suppliers, are constantly innovating to bring newer and better quality products to you and to the market.

TYPES OF TURF OFFERED

- | | |

Go Sportz has partnered with European Suppliers viz. **Lano & Italgreen** to deliver a range of products which are unmatched in quality. With our products you may rest assured, since they have all the necessary approvals from FIFA, FIH, ITF, & IRB.

SERVICES 360°

CONCEPTION ► INSTALLATION ► MAINTENANCE & RENOVATION
Go Sportz can take a project from scratch & convert it to a world class facility. Following a project from Conception to Installation & offering **technical support** at each step, allows us to be your one stop solution. This includes all the **base work, peripheral equipment, maintenance and renovation** as and when required.

CONSULTANCY

Go Sportz can also help **design the facility** & offer **project management services** for a new project or a refurbishment project. With our international partners & our vast experience we can help bring the latest technology & services to your facility and develop it into a world class facility.

PITCH INSPECTION & TESTING

Go Sportz offers complete pitch inspection reports for newly laid or existing sports pitches. We also offer **affordable testing equipment** which can be used for regular checkup by the individuals within the facility. This provides a quick way to check the health of the pitch & identify the maintenance schedules.

TESTING EQUIPMENT

MAINTENANCE PLANS

MAINTENANCE = PRESERVATION
& keeping this in mind **GO SPORTZ** has partnered with **TECHNICAL SURFACES, UK** the leader in **MAINTENANCE & UPGRADE OF SYNTHETIC TURF PITCHES.**

Our partnership with TECHNICAL SURFACES is with the sole purpose of bringing the best technology in pitch maintenance to India. With over 25 years of industry experience TECHNICAL SURFACES has developed unique tools to cater to all types of solutions to increase & ensure maximum life expectancy of the pitch.

WHAT GO SPORTZ - TECHNICAL SURFACES CAN PROVIDE:

1. Online Technical Information System
2. Maintenance Procedures, Training & Equipment
3. Providing Renovation options which are Affordable & have Long Term Economy.
4. Extended Warranties & Quick Service
5. Testing of Pitches
6. Pre and Post Site Inspection

With our project specific maintenance packages we can always find the **perfect match** to suit your needs.

SUPPORTING SERVICES

Along with the main services we also provide supporting services to keep your pitch in a good playing condition as well as extend its life.

- Regeneration (complete renovation of old pitches)
- Line Marking of Pitches
- Granular Top Ups

- Hydrotech process (for low pile turfs like hockey, tennis)

- Seam & Joint repair (maintenance)

Go Sportz has it all...

We can also provide the necessary training to carry out special tasks or operate specialized equipment.

Besides this you can contact us for any specific requirements & we will surely help you with it.
